Environmental Policy

POLICY NO	SRC 02
DATE RATIFIED	Version 1.0 November 2012
NEXT REVIEW DATE	November 2013

POLICY STATEMENT:

Seaforth Radio Cars Limited is committed to providing a healthy and safe environment for all our staff and visitors while being committed to minimising the environmental impact of the all of its activities

ACCOUNTABLE DIRECTOR: Company Director – Kenneth Evason

POLICY AUTHOR: Lee Evason, Company Director

Environmental Statement:

SRC Taxis have provided taxi transport to both the corporate and public sectors for over 40 years. We have supplied both booking and account management services successfully during this period.

SRC realise that their business activities have a direct impact on the environment through the consumption of energy and other resources used on a daily basis. We also realise that we have an impact indirectly through the activities of our drivers.

SRC Taxis objective is to minimise this impact wherever possible and to try and lead the industry by raising awareness with our employees and drivers to help them improve their environmental performance.

To assist with this SRC have installed some of the latest GPS taxi dispatch technology in their vehicles to help reduce the vehicles driving distances by sending the nearest vehicle to the customer's location.

Environmental policy is to:

1. Ensure that we are compliant with all UK environmental legislation.
2. Encourage drivers when possible to update their vehicles to more environmentally friendly bio diesel, dual fuel and electric type vehicles.
3. Encourage our drivers to make sure they do not sit with their engines running at all times to reduce emissions when possible.
4. Help to reduce the consumption of paper and other resources by developing effective waste management and recycling procedures.
5. Continually monitor our performances, review and make changes where necessary to improve our commitment to the environment.
6. As an Edexcel approved training centre we offer training to both our drivers and our staff to raise awareness of environmental responsibilities.
7. Seek to ensure that products and services used by the company do not use materials unnecessarily harmful to the environment such as wood or chemical containing ozone depleting gases.
8. Support the promotion of environmental initiatives by our employees and relevant external organisations.

The management at SRC Taxis continually evaluate their policies and encourage all their staff and drivers to take personal responsibility for working in an environmentally friendly manner.
